

Material Bank brand partner: sustainability impact report.

Thank you for choosing to have your samples consolidated into single packages and shipped carbon neutral across North America. You are helping to dramatically improve the sustainability of sampling in our industry. With **4.3 million+ packages** saved to date, we estimate that approximately **1,660 tons of cardboard** packaging has been saved. That is the equivalent to **28,000 trees saved**. Thank you for your partnership and supporting the design industry to reduce the negative impact effects of climate change.

Our industry commitments

Material Bank has committed to set near term company-wide emission reductions in line with the Science Based Targets initiatives. We have received approval from SBTi on our targets to **reduce Scope 1 and 2 emissions 38% by 2030 from 2021 baseline**.

Material Bank is proud to join an exclusive list of 400+ industry leading companies signing the Climate Pledge committing to combatting climate change. We are committed to being **net-zero carbon by 2040**, 10 years ahead of the Paris Agreement.

Total packages saved

Since Material Bank's first package shipped in 2019.

4.3M+

Packages saved by state

(since 2019)

1. California — 417,215
2. Texas — 345,574
3. New York — 266,646
4. Illinois — 258,321
5. Florida — 226,399
6. Georgia — 167,453
7. Massachusetts — 129,863
8. Minnesota — 124,893
9. Colorado — 123,535
10. Pennsylvania — 121,338

Carbon offsets (mt CO²e)

Carbon credits purchased to offset shipping emissions for 100% of sample orders shipped since the launch of carbon neutral shipping in October 2020.

5.4K+

Car miles NOT driven

Equivalent greenhouse gas emissions offset by purchasing verified carbon credits for all Material Bank sample shipments since October 2020.

13.8M+

Sample reclamation

Sample reuse

Individual samples re-circulated to A&D members.

1.2M+

Landfill diversion

Samples diverted from sanitary landfills (Material Bank's University program, down cycling, local donations, construction debris landfills, waste-to-energy)

700K+ lbs

University program

Sample palette workshops, sample design libraries, 50K+ lbs of samples reused.
